

Achref Khardeni

Front-End Engineer | React · TypeScript · Tailwind CSS | UX/UI-Focused

Ariana Supérieur, Tunisia | (+216) 21 252 871 | achref1011@outlook.com | linkedin.com/in/khardeni-achref | github.com/Khardeni

SUMMARY

Front-End Engineer with 2+ year of professional experience building responsive, accessible interfaces with React, TypeScript, and Tailwind CSS. Delivered production features across SaaS, CMS, and mobile facing platforms. Comfortable across the full stack Node.js, Express, MongoDB with a strong bias toward clean UI and great UX. Looking for a role where front-end craft genuinely matters.

SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS, HTML, CSS, UX/UI Design

Backend: Node.js, Express, MongoDB, MySQL

Tools: Git, CI/CD (GitLab), REST APIs, VS Code, IntelliJ, Agile (Scrum, Kanban)

Languages: Arabic (Native), French (B2), English (B2)

EXPERIENCE

BOOMSNAPE

Front-End Developer · Freelance

Ariana, Tunisia

Sept 2024 – May 2025

- Engineered **18+ responsive, accessible pages** for the PDS platform with **React, TypeScript, and Tailwind CSS**, ensuring consistent UX across devices and screen sizes.
- Designed and shipped **80% of the backend REST API** (Node.js, Express, MongoDB), owning core business logic from schema design to route implementation.
- Streamlined team collaboration by enforcing a clean Git workflow (interactive rebase, filter-repo), **reducing merge conflicts** and keeping history readable.
- Developed **custom WordPress plugins in PHP** for ATPM, extending CMS functionality and adding user-engagement features.

HAYYA

Full-Stack Developer · Internship

Ariana, Tunisia

Mar 2024 – Sept 2024

- Led delivery of **90% of MVP front-end features** with React, from component architecture to RESTful API integration with an Express backend.
- Built and tested **80% of business-logic routes**, covering edge cases to improve reliability and performance.
- Set up **GitLab CI/CD pipelines** enabling **2+ deployments per day** and shortening QA feedback cycles.

CYBERSTONE

Full-Stack Developer · Internship

Ariana, Tunisia

Mar 2023 – May 2023

- Architected and delivered a **full-stack landing page** with **Angular and Spring Boot**, covering UI component design, REST API development, and end-to-end integration.
- Implemented **JWT authentication, route guards, and role-based access control (RBAC)**, securing user sessions and restricting access by role.

LOOKIIMOBILE

Full-Stack Developer · Internship

Ariana, Tunisia

Jun 2022 – Aug 2022

- Built a **full-stack web application** with PHP, HTML, CSS, and a NoSQL database, handling both UI implementation and backend data management.

PROJECTS

QuickAI | React, Node.js, Express, PostgreSQL (PERN)

Oct 2024 – Mar 2025

- Personal SaaS platform for AI-powered content generation, image synthesis, and background removal; built end-to-end with role-based auth and subscription tiers.

Blog App | MongoDB, Express, React, Node.js (MERN)

Oct 2024 – Dec 2024

- Full-stack blogging platform with authentication, comments, and likes; optimized MongoDB queries for performance on large datasets.

PI-DEV E-Wallet | Spring Boot, Angular

Mar 2023 – Jun 2023

- Digital wallet app with transaction management, balance tracking, and secure user authentication flows.

EDUCATION

ESPRIT – Private Higher School of Engineering and Technology

Master of Science in Engineering (Software Development)

Ariana, Tunisia

Sep 2019 – Aug 2024
